

Global Citizenship

Global Youth Fellowship Programme

In 2006, we launched the Global Youth Fellowship Programme as a complement to the Global Citizenship Programme. The goal of the fellowship programme is to *develop a cadre of Canadians with a deep understanding of global policy issues who will exercise leadership roles whether in non-governmental organizations or the private and the public sectors*. The awards are destined for young emerging leaders in Canada who have a passion for and a proven commitment to enhancing Canada's role in the world.
